

## Attacco/Cap

# G4160

Per lampade alogene con riflettori PAR 56  
For halogen lamps with reflector PAR 56

### ART. 013

#### Dati tecnici

- Corpo in porcellana
- Contatti in ottone tornito e nichelato
- Coperchio chiusura posteriore in steatite
- Morsetti a bussola in ottone nichelato idonei per fili da 1 ÷ 4 mm<sup>2</sup>
- Molla premicontatti in acciaio inox
- Tensione nominale: 250 V
- Corrente nominale: 10 A
- Temperatura max del portalamпада: 110°C
- Categoria di tenuta all'impulso: III
- Peso: 80 gr.

#### Technical data

- Porcelain body
- Contacts made of nickel-plated turned brass
- Back cover made of steatite
- Nickel-plated connectors terminals suitable for leads from 1 ÷ 4 mm<sup>2</sup>
- Contact pressing springs made of stainless steel
- Nominal voltage: 250V
- Nominal current: 10A
- Max nominal working temperature: 110°C
- Impulse withstand category: III
- Weight: 80 gr.
